AMIT HAPASE

Full Stack Web Developer mail@hapase.com | +91 7070080887 | hapase.com | 21st Apr 1990 | Pune, India

SUMMARY

Full Stack Web Developer with 3 months of experience in Python and Django RESTful APIs. Skilled in configuring PostgreSQL on AWS RDS, setting up AWS S3 and Linux EC2 for storage and server solutions, and managing version control with Git. Experienced in testing APIs using Postman and proficient in HTML, CSS, JavaScript, and React.js.

TECHNICAL SKILLS

• Programming: Go, Python, JavaScript 0s : Red Hat Linux, Fedora, Win 11

REST API : Diango REST, Go REST Testing Tool : Postman

Front-End : HTML, CSS, React.js Web Servers : Apache Web Server, Nginx

Databases : PostgreSQL, MySQL • Version Control: Git, GitHub, GitLab Cloud : AWS (EC2, RDS, S3) Editing Tools : VS Code, Vim

CERTIFICATIONS

• Red Hat Certified Engineer (RHCE) By Red Hat **271** out of **300** 250 out of 300

 Red Hat Certified System Administrator (RHCSA) By Red Hat

• React - The Complete Guide By Udemy • Go - The Complete Guide incl. REST API By Udemy

Python Django - The Practical Guide By Udemy

EXPERIENCE

Full Stack Python Developer Intern @ Hermion Technologies Pvt. Ltd. **Duration**: Jul 2021 - Sep 2021

- Developed 30+ Django RESTful APIs in Python, improving data processing efficiency by 30% truly great.
- Wrote 20+ **Diango ORM** gueries to optimize database interactions, reducing guery execution time by 40%.
- Configured AWS RDS & PostgreSQL, handling 10,000+ records efficiently remarkably efficient process.
- Implemented AWS S3 bucket storage, reducing media storage costs by 20% producing reliable output now.
- Managed version control with Git and collaborated on 10+ merge requests in GitLab enhancing ROI now.
- Deployed the project on an AWS EC2 instance Red Hat Linux, ensuring 99.9% uptime securing top uptime.
- Installed and configured Apache web server on AWS EC2, improving server response time by 25% indeed.
- Tested 25+ RESTful APIs using Postman demonstrating rigorous testing methods for flawless operation.

PROJECTS

Name: MARKET DATA Link: hapaseamit/marketdata

- Fetched stock exchange real-time **JSON** data using **Python multithreading** & stored it in **CSV**
- Processed data using Pandas and visualized trends with Matplotlib (animated charts)
- Built logic to calculate updated values and verify CSV for existing values using panda

Name: FFMPEG MOBILE Link: hapaseamit/ffmpegmobile

- Automated video FPS conversion, trimming, and compression using Python & FFmpeg
- Optimized scripts for **batch processing** to handle multiple files efficiently

EDUCATION

Bachelor of Computer Applications @ MES Garware College Savitribai Phule University, Pune 60% 2018 **Higher Secondary Certificate** @ Residential Jr. Collage Savitribai Phule University, Pune 2009 54% Secondary School Certificate @ Residential High School Savitribai Phule University, Pune 49% 2006

SOFT SKILLS

Communication: Expressing ideas effectively Adaptability : Adjusting to new situations Focus : Focusing on the given task Creativity : Thinking innovatively

Teamwork : Working well with colleagues **Collaboration**: Cooperating for shared goals
